THE OC ADVANTAGE

- · Learn from professors and instructors with real-world experience and industry knowledge
- Engage in a friendly learning environment where the average class has approximately 20 students
- . Gain a global awareness from a diverse campus community with students from more than 60 countries
- Meet friends and build networks with more than 7,500 full-time students at campuses in Penticton, Kelowna, Vernon and Salmon Arm
- · Take your learning beyond the classroom by joining clubs, participating in student organizations, or working on campus
- Take a course, earn a degree or build a foundation for the future by upgrading
- Flexible learning options include full- and part-time studies on campus and by distance
- Take advantage of more than \$1 million worth of financial aid and awards given annually to students
- 92 per cent of Okanagan College baccalaureate graduates and apprenticeship students are employed*

KELOWNA CAMPUS

- Sustainable LEED Gold facilities
- Cutting-edge new trades building
- Vibrant city living with strong economic growth
- 5,078 full-time equivalent students

VERNON CAMPUS

- Close to Silver Star Mountain Resort
- Turquoise Kalamalka Lake views
- Home to Kalamalka Press, inspiring Canadian authors
- 753 full-time equivalent students

PENTICTON CAMPUS

- Sustainable LEED Platinum facilities
- Largest solar panel array in B.C.
- Thriving wine-making industry & popular recreation destination
- 884 full-time equivalent students

SALMON ARM CAMPUS

- Shuswap Lake summer activities
- Revelstoke Mountain Resort powder skiing
- Dynamic art, theatre, and music community
- 430 full-time equivalent students

More than 20,000 students attend Okanagan College per year.

UNIVERSITY STUDIES IN SCIENCE SOLVE.

Build a strong academic base and ignite your passion for testing hypotheses and for inquiry. Whether you are interested in education, health sciences, nutrition, forestry, medicine, dentistry, or research, a foundation in the sciences provides the building blocks for future studies, including for many undergraduate degrees.

A two-year Associate of Science degree or course studies in the sciences develops students' abilities to think critically, examine and analyze issues and solve problems using scientific principles, experimentation, logic and deductive reasoning in a dynamic learning environment.

TRANSFERABLE CREDITS

Your university degree starts at OC. Study firstand second-year Arts and Science courses that are fully transferable to universities in British Columbia, as well as some others within Canada. Find out more at bctransferguide.ca.

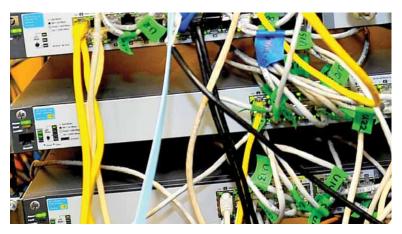

Program and admission info page 42

okanagan.bc.ca/science

Tyler Marshall, second-year Computer Information Systems diploma student, is gaining real-world experience at Acro Media in Kelowna as part of the co-op program.

Q: Why did you choose to study at OC?

A: When I met the department's Chair he shared with me details of how the program preps students for the workforce, including the co-op option. The instructors have a lot of knowledge about the ever-changing tech sector, and great industry partnerships. They help you connect with employers.

Q: What is class like at OC?

A: The instructor will present a problem scenario and then teach the various concepts that could be applied, without giving you the answers. It's more that they give you the tools you need. Then in the lab, you're encouraged to use your creative thinking and problem solving skills to come to the conclusion on your own.

Q: What has your co-op experience been like?

A: I have gained experience in areas that as a student I would only have hoped to discover. I had the chance to see projects through to completion that are solutions to real clients' problems, and I got to lead a gaming and website design project which today has 14,000 members participating. Really, what better way to figure out if the career path you're on is the right one than to kick-start it and try it out, while still being a student?

DEGREE

Bachelor of Computer Information Systems

DIPLOMA

Computer Information Systems

CAREER OPTIONS

Computer Programmer
Database Designer
Game Developer
Software Designer or Developer
Support Technician
System Designer
Technology Entrepreneur

Bursting with start-ups and innovative leading technology firms, the Okanagan's billion-dollar tech sector employs more than 6,500 individuals. A national report identified that more than 182,000 tech jobs will need to be filled in Canada in the next five years.

Okanagan College will prepare you to stay ahead of the curve as you learn the technical and theoretical skills employers look for in the competitive technology industry. In the four-year bachelor degree and two-year diploma programs students learn from industry-leading professors, work with the latest equipment and systems, and gain practical experience working on projects with local companies.

OKANAGAN SCHOOL OF BUSINESS

Lead. Drive. Strategize.

Okanagan College's School of Business prepares students for success in a fast-paced world. Each business program combines theory and hands-on applied business practices in a student-focused setting with unparalleled instruction from industry leaders.

The comprehensive degree, diploma, and certificate programs enable students to thrive in today's dynamic business marketplace in the fields of accounting, finance, human resources management, management, marketing, and tourism. Students have the opportunity to participate in business competitions and community-based course projects throughout the academic year to test their knowledge and build their skills.

Put to work what you learn and gain on-the-job experience with the co-op programs. For details, visit okanagan.bc.ca/coop.

"It's a great curriculum, but beyond the textbook you're actually working on real projects for companies that could hire you. Making the most of the opportunities outside of the classroom such as with associations and business case competitions definitely prepares you for the business world. Through Enactus I have worked on projects that have made a positive impact on the community and represented the College at national

Shanna Lyndon, third-year Bachelor of Business Administration student, aspires to launch an event planning and public relations business.

Sarah Maw, Culinary Management diploma graduate, 2015, is working at Kelowna's Delta Grand Hotel.

Q: Why did you choose to study at OC?

A: The Okanagan is a culinary playground for creativity and opportunity, surrounded by local farms that provide us with amazing ingredients. Knowing the food scene here, I knew the culinary program at OC was the right fit, but I also wanted to learn the business end. The Culinary Management diploma let me study both, which made it the ideal fit.

Q: Can you describe your OC experience?

A: I had an amazing academic journey at the College. I got to participate in outstanding experiences such as field trips to local vineyards and restaurants, cook alongside some of Canada's best chefs at the Gold Medal Plates competition, and participate at the regional Skills Canada BC competition to test my abilities.

FOOD, WINE AND TOURISM

Create. Sense. Impress.

Seek the recipe for success in the vibrant food, wine and tourism industry located in one of the top travel destinations in the world. Do you have a spark within for creating masterful dishes or a curiosity for understanding how wine is made, and are you committed to providing outstanding guest-experiences?

Students at Okanagan College benefit from the experience of some of the country's most renowned chefs and winemakers while learning in a region surrounded by award-winning vineyards, restaurants, and celebrated resorts.

"In class we go over the basics and the theory, and then in the shop we pull parts apart, we even get to rebuild an engine. Learning this way, hands-on, makes me really understand everything. It's unreal to get to work on the large-scale equipment. Knowing that I am responsible for something so big and powerful is amazing."

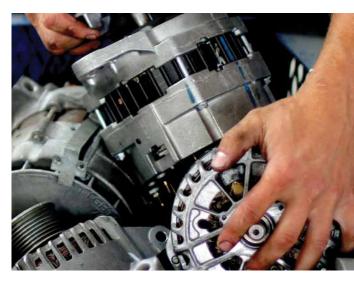

Ryan Holtom is in the second year of his Heavy Duty Equipment Technician apprenticeship, working for the family logging business D.R. Holtom Ltd.

Help build the province: the B.C. Government projects there will be one million job openings across the province by 2022, and 43 per cent of those will require skills you can acquire with training from Okanagan College. The tools to build a successful career are here. For more than 50 years Okanagan College has been the region's leading producer of tradespeople, with a reputation for excellence that extends far beyond the Okanagan.

Learn up-to-date skills from knowledgeable instructors and gain hands-on experience with the latest equipment and technologies in modern training facilities.

ENGINEERING TECHNOLOGY

Apply. Innovate. Solve.

Gear-up to be job-ready and gain a competitive advantage with the technical know-how, versatile skills and real-world experience you'll acquire through Okanagan College's engineering technology programs. Instructors bring their real-world experience and sector partnerships into small class-size settings to ensure you get the most out of your education.

Engineering technology students explore how things work and provide technology solutions that help structure our cities, communities, businesses, and buildings. Take advantage of the co-op program to gain a head-start on your career. Visit okanagan.bc.ca/coop for details.

Nicole Moggey, Senior Lab Technician at the Kelowna Wastewater Treatment Facility, and 2004 Water Engineering Technology diploma alumna, proves an OC education leads to thriving careers.

Q: How has your OC education been applicable to your job today?

A: Without my diploma, I wouldn't even be qualified to work in water quality technology. I was able to start my career job-ready, minimizing the learning curve once onsite. Beyond the classroom, I've kept in touch with many of my fellow classmates who are working in plants across British Columbia and Alberta. It's nice to have an established industry network I can tap into.

Q: Would you recommend an OC education?

A: Absolutely. The program is only two and a half years, which kept education costs low compared to other programs in this field. Employers view the applied training as a valuable asset: as water regulations continue to get tighter, employers are needing to hire more operators, especially those that have demonstrated skill training through their education.

IMAGINE YOUR LIFE AT OC

Study. Play. Live. Challenge. Dream. Connect. Achieve.

"Dear students, all of this real world experience could be YOURS if you choose to enrol at OC. It's your choice. Think about it. Pretty good offer. Up to you, for sure. But I wouldn't wait too long. You should totally enrol right now. Why wait? Do it."

Jake Kennedy English/Creative Writing/ArtsX Professor

ABORIGINAL STUDENT SUPPORT AND SERVICES

Welcome. Relate. Respect.

An inclusive and supportive environment with personalized education plans contributes to the success of Okanagan College's Aboriginal students. Located within the traditional territories of the Okanagan and Shuswap Nations, our four campuses are home to Aboriginal Student Services Centres that provide educational advising, transitions planning, peer mentorship, and study and social spaces in a comfortable setting for students.

We are dedicated to providing culturally relevant support to Aboriginal students as they pursue their educational and career goals. Each year the College hosts a Pow Wow, Aboriginal career fair, and an achievements recognition ceremony that honours traditions.

"I had already worked in vineyards, but the program explained why the vines grow in the way they do and how to manage them accordingly. There are so many employment opportunities in the industry at the moment. Having a solid understanding of how things work makes it easy to work either in the vineyards, become a winemaker or even start a winery."

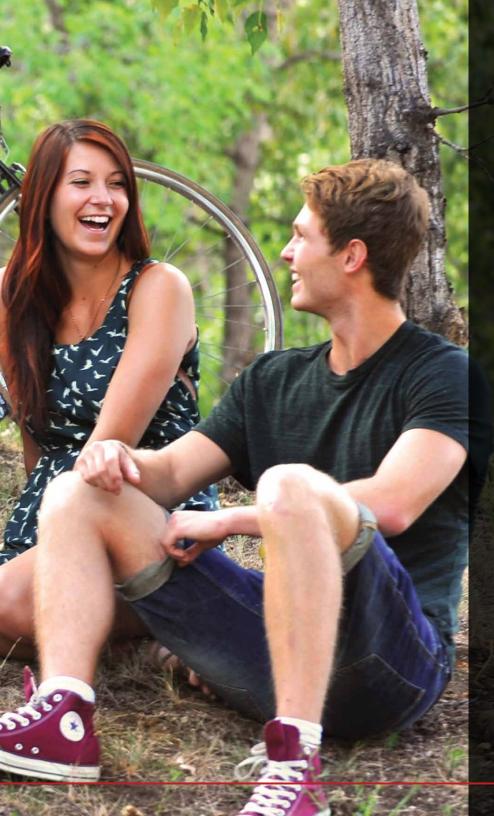

Matt Rademakers, Viticulturist at Poplar Grove and Monster Vineyards, graduated with a Viticulture certificate in 2006.

Okanagan College is focused on helping students reach their potential with a comprehensive range of support services:

- Aboriginal Access and Services
- Academic Advising
- Accessibility Services
- Alumni Association
- · Campus Athletics, Recreation and Student Life
- Campus Stores
- Co-operative Education
- Counselling Services
- · Financial Aid and Awards
- Food Services
- Graduate and Student Employment
- Learning Centres
- Library
- Parking Services
- Student Housing
- · Student Associations, including:
 - o Okanagan College Students' Union
 - o Vernon Student Association
 - o Okanagan Business Students' Association
 - o Enactus Okanagan College
 - o Accounting Club

CAMPUS LIVING

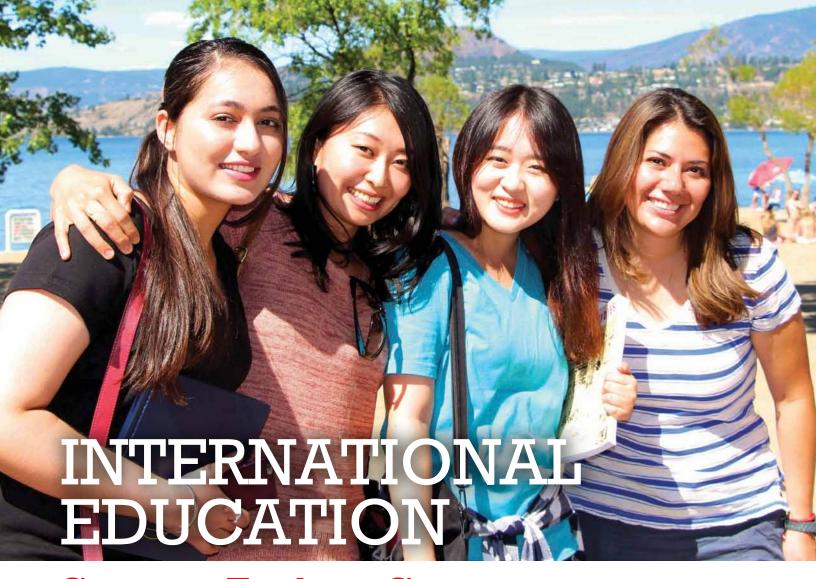

Skaha Place residence in Kelowna offers a variety of affordable accommodation options only steps away from campus classrooms, fitness facilities, food services and the library. Conveniently located close to restaurants, boutiques and grocery stores in the Pandosy Village and a 10-minute walk to the popular Gyro Beach.

okanagan.bc.ca/housing

LIBRARY SERVICES

With a collection of more than 180,000 books, videos, articles and an array of online resources, Okanagan College Library services at each of the four campuses ensures students can uncover the information they need to advance research and enhance learning, or satisfy their curiosity. Helpful library staff can assist students with locating information, as well as provide research support and instruction in print and electronic information sources.

okanagan.bc.ca/library

Connect. Explore. Grow.

Each year students from more than 60 countries study alongside domestic students at Okanagan College. This cultural exchange provides a classroom experience with a global perspective and an international outlook – an invaluable asset to today's graduate.

Okanagan College welcomes students from around the world to study in our region and also encourages domestic students to take advantage of study abroad opportunities at one of the College's many partner institutions around the world.

INVEST IN YOUR FUTURE

Financial Aid and Awards

An investment in your education is one that will never depreciate. Explore the awards, scholarships and bursaries available to help you launch and sustain your post-secondary education at Okanagan College.

The Financial Aid and Awards office is your source for information about financing your education. We can help you create a budget and financial plan for your time as a student, navigate through program costs and understand available student loan options.

AT A GLANCE:

- In 2014-2015 Okanagan College and the Okanagan College Foundation distributed over \$1 million in awards to more than 850 students
- Scholarships are based on academic performance
- Bursaries are available to students demonstrating financial need
- Awards and prizes are given out to students meeting specific eligibility criteria

Contact us financialaid@okanagan.bc.ca

www.okanagan.bc.ca/financialaid

CHOOSE YOUR PROGRAM

PROGRAM OFFERINGS AND ADMISSION REQUIREMENTS:

Okanagan College offers a wide range of credentials in a variety of disciplines. Many programs and courses transfer to universities in B.C. and beyond. Fall, winter and summer sessions, combined with opportunities for full-time, part-time and distance learning, offer students flexible learning options. B.C. secondary school graduation or equivalent (see mature applicants) is required for entry into all degree, diploma, associate degree and most certificate programs. See the calendar at okanagan.bc.ca/calendar for complete admission and minimum grade requirements for all programs.

ENGLISH REQUIREMENTS:

Most programs that require English 12 will also accept Technical and Professional Communications 12, English 12 First Peoples, or equivalent Provincial Level Adult Basic Education English. Communications 12 is not acceptable. Applicants without English 12 can complete the Language Proficiency Index (LPI) exam to satisfy the English requirements of most programs at Okanagan College.

MATHEMATICS AND SCIENCE REQUIREMENTS:

Most programs that require Mathematics, Chemistry, Biology or another science will also accept the equivalent Adult Basic Education (ABE) course. As the B.C. secondary school Mathematics curriculum changes frequently, other courses may be acceptable. Challenge tests or competency exams may be available for courses. Details can be found in the Calendar.

REGULAR APPLICANTS:

Regular applicants are considered students who graduated from secondary school (or equivalent) or are currently enrolled in Grade 12.

MATURE APPLICANTS:

Mature applicants are at least 19 years of age and have been out of full-time secondary school for at least one year prior to commencement of their program. Grade 12 graduation is not required (unless specified), but the applicant must satisfy all general and program-specific admission requirements.

NOTES:

If no percentage grade is indicated for a course that is required for admission to a program, the grade required is 50%. The admission requirements listed on the following pages were current as of the publication date. Please be advised that admission requirements may have changed. All prospective students are advised to see Okanagan College's online Calendar for detailed admission requirements for every program.

Prepares students for entry into the building service industry in custodial work, and provides upgrading for those currently employed in the industry. Divided into four courses. Optional on-the job work experience of up to two weeks may be arranged at some centres.

114 hours; P/K/V/SA/R; PT/FT; ENG 10, physician's note confirming good health

Dental Office Administrative Assistant

An introduction to the skills required for employment as a dental office administrative assistant. Students receive an introduction to dentistry and routine dental procedures, and learn maintenance of patient records, insurance forms, appointment control, and record keeping within a computerized environment. Emphasis is on effective oral and written communication, and professionalism in the dental office.

120 hours; P/K/V; PT/FT; 35 WPM, CF, CPR Level C

Education Assistant

Working in a school setting, duties include helping to implement Individualized Education Plans for children with exceptionalities in the areas of cognitive abilities, physical challenges, severe health issues, behavioural challenges, autism and related disorders. Graduates will gain hands-on experience through a 120-hour practicum in the classroom.

447 hours; P/K/V/SA; PT/FT; ENG 12 60%, CF 60%, Criminal Record Check

Esthetics and Nail Technology

Learn the latest industry techniques for a wide range of treatments including spa-level manicures and pedicures, artificial nail enhancements, skin care and facials, waxing essentials, aromatherapy, reflexology, relaxation and hot stone massage, body scrubs and wraps, eye lash and brow tinting, and make-up foundations. Students find work in day spas, destination spas, cruise ships or as entrepreneurs.

1,100 hours; V; FT; interview with Esthetics and Nail Technology staff

Floral Design

Work as a floral designer or upgrade your current abilities and skills. This certificate program emphasizes retail floristry, including small business and franchise retail outlets. Program content concentrates on the basic principles of plant care, floral design and floral arrangements for special events.

150 hours: K: PT

Gastroenterology Nursing

The online Gastroenterology Nursing Certificate (GNC) provides learners with the knowledge and practical skills for entry into endoscopic nursing.

302 hours; PT/D; active practicing license with a respective provincial professional body (RN, LPN), additional reqs (see Calendar)

Interior Decorating

Learn the basics of interior decorating, drawing floor plans and sketching furniture, as well as advanced skills, including how to mix fabrics, work with colour, employ light and choose accessories. This program provides information through theory and practical assignments.

162 hours; P/K/V; PT

Introduction to Office Administration

This program offers basic business and administrative skills training and is designed to prepare students for entry-level administrative positions, or to upgrade skills in an administrative capacity. Coursework includes technology training and basic office accounting, both manual and computer-based.

198 hours; P; PT; Grade 10 or ABE Intermediate level; Computer Keyboarding Level I or 20 WPM; CF

Landscape Horticulture

If you've got a green thumb, why not use it to make a living doing what you love? Learn the theory behind botany basics and soil science, including which ornamental plants are best for B.C.'s Interior. Dig deeper into plant selection, irrigation systems, pest management, pruning and cultivating.

120 hours; P/KV/SA: PT

Learner-Centred Instructor

Designed for instructors who are currently working in an educational institution or individuals with an educational focus who have access to a teaching/training position. On completion, participants can create an engaging learner-centred environment, and develop and deliver effective instructional strategies.

60 hours; PT/D; ENG 12

Leadership Skills

Develop your leadership skills and gain a professional edge in your career in this program that provides a foundation in the principles of leadership, building high performance teams, and performance management. Students will gain practical skills that they can immediately apply in their workplace. Formerly named Management Skills for Supervisors.

90 hours; P/K/V; PT

Medical Device Reprocessing Technician

With a focus on disease prevention, this program prepares students for a career combating microorganisms and creating safe and hygienic environments for patients. Apply learning in a 400-hour practicum in a hospital setting. Graduates are eligible to write the exams for the Certified Medical Device Reprocessing Technician, Personnel Certification through the Canadian Standards Association, as well as the International Association of Healthcare Central Service Material Management. 814 hours; K; FT; ENG 12 60%, OFA Level 1, CPR Level C, Foodsafe BC, Criminal Record Check, additional reqs (see Calendar)

Medical Office Assistant

Prepares students for employment in reception, clerical, or assisting positions in medical facilities. Students acquire oral and written communication skills, knowledge of office procedures and time management, medical terminology, computer medical billing, and apply medical office guidelines and medical and legal ethics standards.

254 hours; P/K/V; PT/FT; ENG 12 60%, Standard First Aid, CPR Level C, 40 WPM

Nursing Unit Assistant

A Nursing Unit Assistant is a key member of a hospital health care team who assembles and maintains patient charts, handles the admission, transfer, and discharge of patients, processes physicians' orders relating to medications, laboratory and diagnostic tests, and surgical or treatment plans, and performs standard receptionist duties. Program includes a 125-hour practicum in a hospital unit.

310 hours; P/K/V; PT; ENG 12 60%, Standard First Aid, CPR Level C, 50 WPM, CF 60% or equivalent, Criminal Record Check, additional regs (see Calendar)

Occupational Health & Safety

Learners become familiar with effective health and safety systems, how to evaluate and continually improve health and safety systems, health and safety legislation, facilitation techniques, ability management, risk management, investigations and audits. 272 hours; PT/D; ENG 12 60%, FM/P 10 60%, CF 60% or equivalent

Production and Inventory Management

Acquire an in-depth understanding of the latest techniques and trends in operations, and increase your functional knowledge of production and inventory management. Improve efficiency across your organization's supply chain, streamline operations through accurate forecasting, deliver just-in-time products and services, and increase profitability by optimizing your organization's inventory investment.

192 hours; K; PT

Project Management

This intermediate-level certificate provides students with project management knowledge, strategies and tools that can be applied in workplaces in a variety of fields. Delivered in a blended learning format that offers a flexible and interactive learning environment, the certificate is designed for project managers at all levels. Students spend three weekends in total on the Kelowna campus and complete the remainder of the coursework online.

138 hours; PT/D; ENG 12 60%, FM 10, Excel Level One or Excel Level One online assessment

Service and Support in a Learner-Centred Organization

Designed for employees in educational support and service roles, this program focuses on enhancing workplace skills by developing a people-centred philosophy of service. Using an integrated approach that merges hands-on training with theoretical learning, participants develop practical service skills such as engaging in people-centred communication, becoming adept at responding to people's needs, and gaining experience in using plain language to explain complex rules.

Teaching English as a Second Language

Program prepares students to work as ESL teachers of adult learners in Canada and overseas. Program is comprehensive in education theory and provides a hands-on approach to learning various second language-teaching strategies. Also offers students training in language principles and patterns, and addresses the application of this knowledge to the teaching of language skills, grammar, vocabulary and pronunciation.

140 hours; K/V; PT; ENG 12 70%

ENGINEERING TECHNOLOGIES

Information about Engineering Bridge programs to UBC Okanagan see okanagan.bc.ca/technologies.

DIPLOMAS

Civil Engineering Technology

Learn the skills used in design and construction of municipal, structural and transportation projects.

2 years; K; FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 12 60% or proficiency test and one of PHYS 11 60%, Applied PHYS 12, PHYS 12

Electronic Engineering Technology

Training in analog and digital electronic systems and equipment for jobs in the communications, microcomputer applications, and system controls fields.

2 years; K; FT; ENG 12 60%, PREC 11 67% or PREC 12 60% or proficiency test and PHYS 11 60%

Mechanical Engineering Technology

Learn about the design, manufacture, installation, operation and maintenance of machines and mechanical devices.

2 years; K; FT; ENG 12 60%, PREC 12 60% or proficiency test and PHYS 11 $\,$

Network and Telecommunications Engineering Technology

Prepare to work successfully in the field of local-area and widearea voice/data communications.

2 years; K; FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 12 60% or proficiency test

Sustainable Construction Management Technology

Gain a comprehensive understanding of what goes into largescale project management, with training and work experience in technical and business skills, emphasizing sustainable design principles.

3 years; P; FT; ENG 12 60%, PREC 11 67% or PREC 12 60% or proficiency test

Water Engineering Technology

Training in the design, use and maintenance of water systems, wastewater and waste disposal facilities, and environmental monitoring. Choose between Water and Wastewater Technology or Environmental Monitoring.

2.5 years; K; FT; ENG 12 60%, PREC 11 67% or PREC 12 60% or proficiency test and CHEM 11 67%

FOOD, WINE and TOURISM

DEGREE

Bachelor of Business Administration Tourism and Hospitality Management

The degree specialty provides students with an understanding of business and management practices within the global tourism and hospitality sector as well as a foundation in general business. Graduates are prepared for a career path leading to management positions within the tourism and hospitality sector. 4 years; Start at P/K/V/SA and complete degree at K/V; PT/FT/D; ENG 12 70%, one of PREC 12 60%, FM 12 60%, AWM 12 60%

DIPLOMAS

Business Administration Diploma Tourism and Hospitality Management

The diploma option provides students with an understanding of business and management practices within the tourism and hospitality sector as well as a foundation in general business. This program can ladder into the BBA degree.

2 years; Start at P/K/V/SA and complete at K; PT/FT/D; ENG 12 60%, one of PREC 11 60%, FM 11 60%, AWM 11 60%

Culinary Management

Combining two semesters of academic study in business and 10 months of practical culinary training, this unique program prepares students for opportunities in the growing area of culinary management. Graduates receive technical training credit towards their cooking apprenticeship, hours credited toward their apprenticeship and academic credit for the Business Administration courses completed.

2 years; K*; FT; ENG 12 60%, one of PREC 11 60%, FM 11 60%. AWM 11 60%

Viticulture Technician

Developed in conjunction with industry, the Viticulture Technician diploma balances theory with practice. In keeping with the viticulture growing season, students develop practical skills and knowledge that are applied throughout the program. Please note, this diploma is currently pending approval by Education Council and the Okanagan College Board of Governors.

CERTIFICATES

Culinary Arts

Designed for the student with a demonstrated interest in following a career in food preparation and service or as a chef, this program provides the necessary fundamental knowledge for employment in the food industry. Emphasis is placed on the practical aspects of food preparation, presentation and service. The modern kitchens, cafeteria, restaurant and coffee shop provide a realistic training environment.

40 weeks; K/R; FT; ENG 10, FM 10 or AWM 10

Pastry Arts

Learn all the craft skills needed to work as a professional Baker/ Patissier. Training includes ingredient and finished product knowledge, bread making, cakes, and pastries in all their various forms. Successful graduates will be ready for employment in any of the various settings where baked goods are required, from specialty bakeries to fine dining restaurants, hotels, resorts and cruise ships.

40 weeks: K: FT: ENG 10. FM 10 or AWM 10

Viticulture

Gain the skills and knowledge essential to farm a vineyard or seek employment in viticulture. Through this program you'll learn the scientific principles underlying grape growing for the purpose of wine production, the various influences on grape quality, and industry terminology. In addition, you'll learn vineyard management, vineyard equipment operation, maintenance, and safety.

307 hours; P; PT/FT; ENG 12, 19 years or older

Gain the knowledge and skills to work in the exciting sales side of the wine industry. Begin with the basics of grape growing and winemaking before moving onto legal regulations, industry standards, marketing and sales strategies, and knowledge of wine shop management and winery promotions.

147 hours; P; PT/D; ENG 12, 19 years or older, Serving it Right certificate

Winery Assistant

Gain the knowledge and skills needed to work alongside the many master winemakers in our region. Learn the scientific principles underlying grape and wine production, influences on wine quality, industry terminology, winery equipment operation and maintenance, harvest and crush, sanitation and safety, wine sensory evaluation, and marketing and sales. 308 hours; P; PT; ENG 12, 19 years or older, Serving it Right and FOODSAFE certificates

FOUNDATIONAL PROGRAMS

Adult Academic and Career Preparation (AACP)

Upgrading is offered in the following subjects: Biology, Chemistry, Composition, Computer Studies, English, First Nations Studies, Introductory Algebra, Mathematics, Physics, Science and Social Studies. Varies in length; P/K/V/SA; PT/FT; 19 years of age or out of secondary school for at least 12 months and 18 years of age, or completed Grade 12, all students entering any Fundamental Level English or Basic Literacy course for the first time are required to complete an individual admission interview with a Fundamental Level English instructor

CERTIFICATES

Adult Basic Education Fundamental Level Certificate (ABE)

This level is for students wishing to improve their basic skills or to prepare for the Intermediate Level program. See AACP description above for requirements

Intermediate Level Certificate (ABE)

This level prepares students for the Advanced Level program or for entry into post-secondary programs that have an admission requirement of Grade 10 or equivalent. See AACP description above for requirements

Advanced Level Certificate (ABE)

This level prepares students for the Provincial Level (with completion of English 012) for entry into many post-secondary programs that have an admission requirement of Grade 12 or equivalent. See AACP description above for requirements

Provincial Level Diploma (ABE)

This is the highest level of the Adult Basic Education program and requires rigorous study. The Provincial Level prepares students for admission to post-secondary programs. The student who completes this level is eligible for a British Columbia Adult Graduation Diploma. Students should consult an Educational Advisor and carefully select their courses if they plan further study at the post-secondary level

Adult Special Education (ASE) Basic Skills Certificate A

This program is for students who wish to develop academic and independent living skills. Program content includes courses that focus on basic literacy and math skills, interpersonal and self-management skills, creativity and self-expression, workplace awareness, and skills for increasing independence. 2-4 years; P/K/V/SA; PT/FT; applicants must be at least 19 years of age, or 18 years of age and have been out of the public school system for at least 12 months, or have a school leaving certificate; must complete an intake interview and reading assessment

Adult Special Education (ASE) Basic Skills Certificate B

This program supports level two and three students who wish to work on academic skills and independent living skills. Program content includes courses, which focus on literacy and math, interpersonal and self-management skills, creativity and self-expression, workplace awareness, and skills for increasing independence.

Length varies; P/K/V/SA; PT/FT; applicants must be at least 19 years of age, or 18 years of age and have been out of the public school system for at least 12 months, or have a school leaving certificate; must complete an intake interview and reading assessment

Adult Special Education (ASE) Advanced Skills Certificate

This program is for students who have successfully completed the Basic Skills B program, have demonstrated continued growth in their learning, and are committed to full-time attendance. Course work continues to focus on literacy and math skills, self-management and interpersonal skills, creativity and self-expression, workplace awareness, and skills for increasing independence.

P/K/V/SA; PT/FT; successful completion of the BSCB certificate

English as a Second Language Certificate (ESL)

The goal of this program is to develop general language skills in listening, speaking, reading and writing. Length varies; K; PT/FT; assessment examination

English for Academic Purposes (EAP)

This program helps students improve their English for academic studies at college and university and bridges to a certificate, diploma, associate degree or degree program at Okanagan College.

4 semesters; K; PT/FT; assessment required

Preparing for Access to Education (PACE)

The educational focus is on developing student success skills and, if appropriate, choosing a modified and supported second year specialty within the Supported Access to Modified Education. The vocational focus is on career awareness and the development of appropriate workplace attitudes, values, and behaviours, develops communication, assertive, stress management, and conflict resolution skills.

1 year; P/K/V/SA; PT/FT; applicants must be at least 19 years of age or be at least 18 years of age and have been out of the secondary school system for at least 12 months, or have a school leaving certificate

Supported Access to Modified Education Certificate (SAME)

This program enables students with cognitive disabilities, who cannot meet entry criteria for regular Okanagan College programs, to access modified versions of those programs. Students will be supported to develop specific vocational skills in a program that has been modified to meet their learning needs. They will also attend a weekly student support class. Successful students will receive an anecdotal grade and a modified certificate.

Length varies; P/KV/SA; PT/FT; psycho-educational assessment and educationally specific documentation from a physician or medical specialist required

HEALTH AND SOCIAL DEVELOPMENT

DEGREE

Bachelor of Science in Nursing - Years 1 and 2

In partnership with the University of British Columbia's Okanagan campus, this program provides years one and two of the four-year Bachelor of Science in Nursing (BSN) degree program offered at UBC Okanagan. Students who successfully complete all courses are granted admission into UBC Okanagan's BSN program and guaranteed course transfer credits to complete the final two years of the degree. 2 years; K; FT; ENG 12 70%, PREC 11 or FM 12, BIO 11 and 12, CHEM 11 and 12, plus one other approved Grade 12 course, additional regs (see Calendar)

DIPLOMAS

Early Childhood Education

Get the education you need to work as an early childhood educator in daycare and preschool settings with specialized training in infants and toddlers.

2 years; K; FT; ENG 12 67%, additional reqs (see Calendar)

Human Kinetics

Acquire a solid foundation in the art and science of human movement, with a choice of three distinct streams: Health and Fitness, Health and Physical Education, or Kinesiology and Health Science.

2 years; P^* ; PT/FT; ENG 12 60%, PREC 11 or FM 11, BIO 11 or 12, additional reqs (see Calendar)

Human Service Work

Enhance the quality of life in your community. This program provides the skills needed for work as a social service/mental health support worker or as a community and classroom support worker.

2 years; K/V/SA; FT; ENG 12 60%, additional regs (see Calendar)

The Pharmacy Technician program prepares students to work in retail, hospital and long-term care pharmacies. Students will gain knowledge and skills relevant to the technical and clerical aspects of the pharmacy profession. This program has been awarded Provisional Accreditation by the Canadian Council for Accreditation of Pharmacy Programs.

20 weeks (plus 8 weeks of practicum); K; FT; ENG 12 60%, BIO 11 60% or BIO 12 60%, CHEM 11 60%, PREC 11 60%, Criminal Record Check

INTERNATIONAL EDUCATION

See ESL programs in Foundational programs list.

TRADES

FOUNDATION (PRE-APPRENTICESHIP) CERTIFICATES

Aircraft Maintenance Engineer (AME), Category 'M' (Maintenance)

In partnership with Northern Lights College, this co-op program provides maintenance training for both rotary wing aircraft (helicopters) and fixed wing aircraft. Students will cover a wide range of subjects with emphasis on practical shop training. Graduates seek employment as apprentice aircraft maintenance engineers

62 weeks; V; FT; ENG 11 67%, PREC 11 or FM 11, Science 11 or equivalent, AWM not accepted

Aircraft Maintenance Engineer (AME), Category 'S' (Structures)

This program consists of 50% classroom theory and 50% hands-on practical training in the shop that follows a national set of standards and is approved by Transport Canada. Students will acquire knowledge and skills in aviation structures, design and construction, fabrication and repairs, installation and assembly. Structures technicians are often an integral part of repair teams including maintenance technicians, avionics technicians and professional engineers. 37 weeks; K; FT; ENG 11. one of PREC 11. FM 11. or AWM 11

Automotive Collision Repair/Painting and Refinishing Technician

Students learn technical skills in body repair, cutting and heating technologies, MIG welding, surface preparation, and wheel alignments, among other skills. Graduates receive Industry Training Authority (ITA) credit for level 1 Apprenticeship technical training for both Auto Collision Repair and Automotive Refinishing Prep Technician.

36 weeks; K; FT; ENG 10, FM/P 10 or AWM 10

Automotive Refinishing Prep Technician

This program has been designed to provide graduates with the practical skills needed to find employment in the automotive refinishing/painting trade. Through demonstrations and handson practical shop training, students receive expert instruction on safe work practices, tools and equipment, surface preparation, sheet metal repair, plastics and composites, spot repairs, undercoats and topcoats.

22 weeks; K; FT; ENG 10, FM 10 or AWM 11

Automotive Service Technician

Students are trained to enter the automotive repair trade. Working with the latest tools and one of the finest fleets of industry-donated vehicles, not to mention instructor expertise that averages 15 years, students gain the experience to excel as automotive technicians.

30 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Carpentry/Joinery

Students receive training in the latest in building technology, from interior and exterior finishing details, site layout, and concrete forms, to construction of floors, walls, roofs and cabinets. Graduates work as carpenters and use their skills to build cabinets, furniture and more.

30 weeks; K; FT; ENG 10, one of PREC 11, FM 11, or AWM 11

Electrician

Combining theory with a considerable amount of hands-on training, students are prepared to work with various aspects of residential, commercial and industrial systems as well as rigging and hoisting equipment, hand and power tools, conductors and raceways, prints and drawings. Graduates will have the knowledge and skills needed to find employment in the construction, resource or transportation sectors.

24 weeks; P/K/V/SA; FT; ENG 12; one of PREC 11, FM 11, or AWM 11

Heavy Mechanical Foundation

This program provides practical knowledge and training in a real-world setting in four high demand trades: Heavy Duty Mechanics, Commercial Transport Mechanics, Diesel Engine Mechanics, and Transport Trailer Technician. The program includes a two-week industry work placement that may lead to permanent employment.

38 weeks; K; FT; ENG 10, one of PREC 11 67%, FM 11 67%, or AWM 11 67%

Metal Fabricator (Fitter)

Program provides students with the practical knowledge and skills for employment in steel fabricating and the construction industry. Students learn to read drawings and layout procedures, the fabrication process to build products with steel plates and structural steel shapes. The fabrication process will include shearing, cutting, punching, drilling, forming, fitting and welding. 23 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Plumbing and Piping Trades

Designed to take a student with little or no previous experience in the plumbing trade and supply them with the skills necessary to seek employment as an apprentice plumber. Students are exposed to aspects of residential, commercial and industrial systems in the trade with a focus on developing practical skills. 25 weeks: P/K/V/SA: FT: ENG 10. FM 10 or AWM 10

Recreation Vehicle Service Technician

This internationally renowned program provides the training and skills required in the servicing and repair of recreation vehicles. Students learn a wide spectrum of skills including propane fitting, welding, carpentry, electrical systems and more. 28 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Refrigeration and Air Conditioning Mechanic

Students receive a solid foundation in the fundamentals of installing, servicing, and troubleshooting all aspects of heating, ventilating and air conditioning/refrigeration equipment. Learn welding and brazing techniques, drafting skills, basic electrical concepts, wiring schematics and much more needed to find employment in the heating, air conditioning and refrigeration industry.

25 weeks; P; FT; ENG 10, FM 10 or AWM 10

Residential Construction

This program introduces students to all aspects of the construction trades including the use of hand tools, portable power tools and other equipment used by carpenters. Through the construction of a residential wood-frame project students are given the opportunity to work with a variety of materials used by carpenters including lumber, panel products, concrete, fasteners and hardware.

30 weeks; P/V/SA; FT; ENG 10, one of PREC 11, FM 11 or AWM 11 $\,$

Sheet Metal Worker

Students learn to use manual and computerized machinery to fabricate equipment out of stainless steel and other types of metals. Graduates of this program can seek employment within a variety of occupational environments such as residential, commercial and industrial sectors using a wide range of skills, which include the creation, installation, servicing and maintenance of duct systems.

20 weeks; K; FT; ENG 10, FM 10 or AWM 10

Studio Woodworking

Study woodworking from the craftsperson's perspective. With a primary focus on furniture this program offers a range of woodworking skill sets that can be adapted to any of the many disciplines within the Cabinetmaker/Joiner trade.

35 weeks; K; FT; ENG 10, FM 10 or AWM 10

Welder Foundation

Students will acquire a thorough understanding of welding materials, processes and applications and will work on a wide range of projects in a real world environment, instructed by experienced and knowledgeable instructors. Graduates will have the skills needed to find employment in the manufacturing, construction and services industries.

28 weeks; P/KV/SA; FT; ENG 10; one of PREC 11, FM 11 or AWM 11

FOR A COMPLETE LIST OF APPRENTICESHIPS SEE PAGE 16

UNIVERSITY STUDIES IN ARTS

Students who do not meet the English requirement for the Associate Degree or diplomas, may be admitted with conditions.

ASSOCIATE DEGREE

Associate of Arts Degree

Enhance your communication and critical thinking skills, and learn to apply research and knowledge that will help make a contribution to your field of study, your employer and your community.

Develop skills in applied communication and enhance competence in areas such as professional writing, public relations theory and practice, management communications, marketing, writing, and visual communication.

18 credits; K; PT/FT; 60 credits of post-secondary study

UNIVERSITY STUDIES IN SCIENCE

Students who do not meet the English and/or Math requirement for the Associate Degree, may be admitted with conditions.

ASSOCIATE DEGREE

Associate of Science Degree

Develop practical experience and theoretical knowledge that will open the door to a myriad of career options or further studies in dentistry, medicine, pharmacy, veterinary medicine, optometry, forestry, high-tech, statistics, data analysis, and more.

2 years; P/K/V/SA; PT/FT/D; ENG 12 60%, PREC 12

APPLY NOW

Become an Okanagan College Student

1

CHOOSE YOUR PROGRAM

Decide which program and campus interests you. See pages 36-42 or check out program information at **okanagan.bc.ca/programs**.

2

CHECK THE REQUIREMENTS

B.C. Secondary School graduation or equivalent is required for entry into all degree, associate degree, diploma and most certificate programs. Go to okanagan.bc.ca/calendar for complete admission and minimum grade requirements including English language and mature applicant requirements.

3

APPLY ONLINE

Submit your application at **okanagan.bc.ca/apply**.

Applications for most programs in the 2016-17 year open on Nov. 2, 2015. Many programs have multiple start dates throughout the year. Okanagan College accepts applications on an ongoing basis. Contact a recruiter at **chooseoc@okanagan.bc.ca** to find out more.

4

TRACK YOUR APPLICATION

Once you apply, you'll receive a student number and login information. See the status of your application and check on required documents such as official school transcripts through Okanagan College's intranet, myOkanagan.

5

WE'LL BE IN TOUCH

Staff from our admissions department will be in touch regarding your application via mail and email. In the meantime, visit our website for current College information about financial aid, student life, news, events and more. Connect with the College via Okanagan College's Facebook, Twitter, Instagram and LinkedIn accounts.

MY PROGRAMS OF INTEREST:

EXPERIENCE OC

We invite you to experience one or all of Okanagan College's four campuses. Call our recruiters to arrange a guided tour and imagine your life as an OC student.
